DISTANCE LEARNING FREQUENTLY ASKED QUESTIONS

Q: **Where can I access distance learning expectations, links, and resources?**

A: All distance learning information is centrally located on our **DISTANCE LEARNING DOCUMENT**. This is the primary source for distance learning and includes links to lessons, information on office hours, video resources, and more. Please save the link to this document. It is updated daily with the most recent information.

Q: **If our family situation prohibits logging one hour on i-Ready each day, can we log time on the weekend or extra time on a given day?**

A: Absolutely, just make sure by Sunday at 5 p.m. you have logged all of your time.

Q: **Are students required to log hours on the weekend?**

A: No, the hour requirements are M-F for days school would be in session.

Q: **Can we break the required hours into smaller amounts of times for our children?**

A: Absolutely, each student has their own ability to focus for a given time. Taking breaks is a good way to make the learning more enjoyable.

Q: **Can parents substitute logging online hours for hands-on learning activities if they're approved by and reported to the teacher?**

A: Just like in the classroom, there will be activities that are assigned by the teacher and/or school. When marked required, these activities cannot be substituted.

Q: Can we use other online learning programs other than the ones directed by the school?

A: We encourage you to engage your student in learning on their level. Other platforms can be fun but make sure to balance that with time away from the screen.

Q: What are the system requirements for i-Ready?

A: For computers and laptops, the following browsers are supported:
For iPads, please use the i-Ready for Students app with iOS 13. I-Ready is not currently compatible with

Operating System	Edge	Safari	Firefox	Chrome
Windows 7 SP1	N/A	N/A	74 or higher	81 or higher
Windows 10 1803 (April 2018 Update)	81 or higher	N/A	74 or higher	81 or higher
OS X 10.12	N/A	12.1 or higher	74 or higher	81 or higher
OS X 10.13–10.15		13.1 or higher	74 or higher	81 or higher
Google Chrome OS	N/A	N/A	N/A	81 or higher

iPhones or Android tablets or phones.

Q: What if my family doesn't have a device that supports i-Ready?

A: Please contact your school administrator for support to access technology.

Q: Why is i-Ready logging less time than my student is online?

A: Instructional usage time on task is calculated only when students are working on their lessons within i-Ready. Components can include the tutorials, practice, and quizzes. The components in a lesson vary depending on the complexity of the skill being taught. For example, some lessons may only have a tutorial and a quiz, while others may have a tutorial, multiple practice components, and a quiz. You can see this information by pulling up the lesson preview box. Any of the components listed ARE counted toward time on task.

The time students spent in other assessments (Growth Monitoring, Standards Mastery) or time spent in My Stuff (changing theme, study buddy), playing games, etc. does not count toward the instructional usage time on task.

Q: What if my family does not have access to technology and/or internet?

A: We are currently working on a plan to assure all students have access to technology. In the meantime, we are offering families who do not have access to technology and/or internet with work packets.

These packet pickup times take place during meal pickup times, Mondays and Wednesdays between 9 a.m. and noon, through Driveline. Please do not exit your vehicle when picking up packets, a staff member will bring them to you. Packets are due when school re-opens.
